Weddings

Fairlawns is the ideal venue for a smaller, elegant wedding. Ceremonies can be held in the gardens, but the actual reception is held in the de Beers function room. In view of the increasingly unstable weather conditions.

Due to the small and intimate nature of the hotel, it is ideal for weddings that have to cater for overseas visitors. Either the entire hotel, or the Courtyard section, or the Premier Wing section can be block-booked. Total exclusivity cannot be ensured unless the entire hotel is booked.

The Hotel has a Rolls Royce Silver Shadow which is available for transferring the bride and her father. What bride doesn't want to feel like a queen for a day, and what better way than arriving in style?
